

Press Release:

**CADES receives AIRBUS certificate of Approval for
Design Engineering Services**

Bangalore, India, January 2007: CADES, India's leading Aerospace product design and development company, today announced that it has been approved by Airbus in accordance with Airbus process. This approval opens new opportunities for CADES to work directly with Airbus, in the Product Design and Engineering Services areas.

With this approval, CADES adds one more achievement to its repertoire. CADES team at Bangalore has expertise in Aerospace product design & development that includes design, analysis, simulation, virtual testing, digital manufacturing, product data management and Technical documentation. The engineering team at CADES is considered to be one of the best in the country.

Speaking on the occasion, CADES MD & CEO, Mr. Dataram Mishra said, "It is an honor to obtain this approval and to have been selected by Airbus to provide design engineering services for the Airbus programs. We have been associated with several aerospace organizations, many of them leaders in their respective domains, and have provided tremendous value to them through our excellent mix of experience, expertise, processes and infrastructure".

CADES has been associated with Airbus programs for more than two years, with over 100 engineers working on Design, Stress, F&DT, Modification and Harness design activities for many Airbus programs through the strategic suppliers of Airbus. CADES has been an extremely successful Indian partner. With this approval, CADES is now positioned to work on offshore projects with Airbus on the Airbus programs.

About CADES Digitech Private Limited: CADES is a leading, domain focused product design and engineering services company with a strong emphasis on innovation. CADES provides Projects, Consulting and R&D services to aerospace, defense and automotive industries. CADES is ISO 9001:2000, ISO/IEC 27001 & AS 9100B certified and also approved by CEMILAC and DGCA. CADES is approved by Airbus for providing Design Engineering Services

Headquartered in Bangalore, CADES has multiple delivery centers in the city and has 15 offices in 10 countries across India, North America, Europe and Asia Pacific. CADES has core competencies in the areas of Design, Analysis, Simulation, Virtual testing, Digital manufacturing, Product Data Management & Technical Publication.

CADES is known for its team of professionals with rich domain expertise, industry processes, practices and applications. The team also has proven capabilities in working from concept to manufacturing with value addition of technology innovations. CADES has formed strategic partnerships with R&D, Manufacturing, Testing, Systems development organizations and Educational Institutions.
